

English Proficiency Test for Aviation

(Pilot Speaking)

PART1 Interview

Task A Greetings & Introduction

Hi, my name is _____, and I'm your interviewer. How are you today?

For the record, can you please tell me your complete name and home address?

Task B Providing Job-Related Information

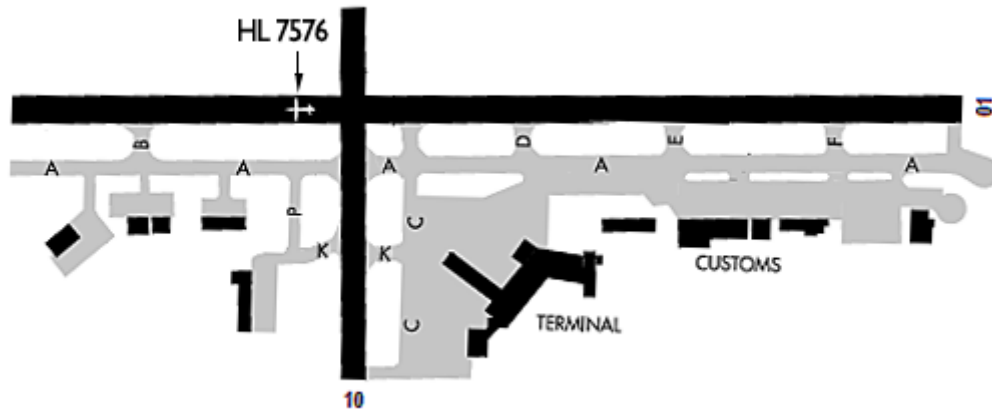

A cabin and flight crew briefing is one of the things that occurs before a flight. What is the purpose of the pre-flight briefing and why is it important?

PART2 Role Play

Task A Situation 1

Imagine you are the pilot of HL 7576. You are on approach to your destination airport. You have requested clearance to land on the active runway and are awaiting instructions from the controller. The controller wants you to hold over the airport for 30 minutes because the airport is quite busy. However, you do not have enough fuel remaining to hold that long. Inform the controller about your situation and make an appropriate request.

Task B Situation 2

You have just landed at your destination airport and are awaiting taxi instructions to the terminal. You are currently on runway 01. Listen to the controller's instructions and respond as necessary.

Task C Situation 3

You are en route to your destination airport, but you're running a bit behind schedule. You want to request direct routing to SIMAT in order to make up for lost time. Make the required request to the controller, then respond to the controller's message as necessary.

PART3 Providing Information and Sharing Opinions

Task A Work-Related Situation

What would you do if your captain or first officer is incapacitated during flight and is no longer able to assist you in flying the aircraft?

Task B Presenting an Idea about a Picture

Look at the picture provided.

What do you think happened to the aircraft? How do you think it happened?

Task C Stating an Opinion

It has been reported that the severity of aircraft accidents has decreased significantly and the survival rate of passengers involved in accidents is also much higher. This can either be attributed to the fact that flight crews are well-trained or the highly developed nature of modern aircraft . Which do you think is the more likely reason for the increased safety of air travel in recent years? Why?

*THIS IS THE END OF THE SPEAKING TEST
PLEASE WAIT FOR FURTHER INSTRUCTIONS*
